

My wife and I are retired and therefore do a lot of traveling by car. XM satellite radio provides variety and quality that are not available elsewhere. I get the programming I want....and I'm not distracted from my driving by looking for radio stations after fadeouts.  
It's a great enjoyment!!

Please reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we want and are now use to receiving.

Thank-you!

John Rystar
